Mechanical Seals

Mechanical Seals for Pump shafts provide the best possible seal for a rotating shaft

ASP Type 1 (or E) Seal

ASP Type 1 seals are ideal for use in most rotating shaft applications. They perform well in a wide range of applications from water, steam, chemicals, etc. The ASP Type 1 has a self aligning design that automatically adjusts for abnormal shaft end play and run out. It's non-clogging single spring design makes it ideal for pulp and paper, waste water, and many other demanding applications. The ASP 1 dimensionally conforms to ASTM F1511-94 and for most applications is a direct drop in replacement for an original equipment seal. Seal Ratings: Pressures: up to 425 psig, Temperatures: -20 F to +400 F (Viton) -40 F to +225 F (Buna-n)

If you click on the ASP Item# it will take you to a dimensions page for that seal.

ORDER	Item#	Size	Elastomer / Seat Material	Price
<input type="text" value="1"/> Quantity <input type="button" value="Add to Cart"/>	ASP-274	5/8"	BUNA Cup Mount CERAMIC	\$ 17.70
<input type="text" value="1"/> Quantity <input type="button" value="Add to Cart"/>	ASP-2012	3/4"	BUNA Cup Mount CERAMIC	\$ 15.76
